

Polar Bears at the Zoo

Level H / 141 words / informational

High frequency words: from, has, its, small, very, warm, was

Before reading

• Look at the cover and read the title. Call attention to the informational text features within the text: bold words, glossary, photographs.

• Possible discussion questions: "Where have you seen a polar bear? What do you know about polar bears? What would you like to know about polar bears?"

• Fill in the first two columns of a KWL chart on polar bears. Fill in the K section with what students already KNOW about polar bears and fill in the W section with WHAT they would like to learn about polar bears.

Look through all the pictures

• Using the language in the story, discuss each photograph in the book. Notice details in the pictures and use that information to better understand the text.

• Help the children find any tricky words in the text: absorbs, footpads, underneath, and Velcro. Discuss meaning, word structure, and sounds you expect to hear in those words. Notice that footpads is a compound word.

Reading the text

• Have the children read the text independently. While they're reading, listen to and prompt each student to use meaning, structure, and visual information to figure out words, self-correct, or improve expression.

FUN FACT

An adult male polar bear can weigh between 775 and 1,200 pounds (the same as the total weight of five to seven men). That same cub weighed only one pound when he was born. • Introduce and discuss graphic organizers. A graphic organizer provides a visual representation of information, concepts, or ideas to help children understand and organize what they are reading.

After reading

• Discuss the meaning, structure, and letter cues that you notice students using correctly.

• Literal comprehension: The answers are in the text. Ask, "What did you find interesting about polar bears? Why?" Have students read the pages that support their answers.

• Inferential comprehension: The answers are in your head. Ask, "How do you think polar bears feel about the warm seasons at the zoo? What else would you like to know about polar bears?"

Word work

• Have the students locate the high-frequency words in the text and practice writing them.

• Find and discuss the word *paw* with the */aw/* vowel pattern. Create other words with the same pattern (*saw, flaw, thaw, gnaw,* and *raw*).

Rereading for fluency

• Have the child(ren) read the story again aloud, listening for phrased, fluent oral reading that includes appropriate pausing, intonation, and word stress.

Writing activity

• Have each student complete the L section of the KWL chart with what they have LEARNED about polar bears after reading this book. Have them share what they've learned with each other.

Teaching Points: Introducing nonfiction/informational texts; Introducing the KWL graphic organizer; Introducing new words; Noticing compound words; Practicing the */aw/* sound; Rereading.
