

Flamingos are birds that are covered with **pink**, orange or red feathers. They get their color from the foods they eat. One of their favorite foods to eat is shrimp.

This flamingo is hungry. It can only eat the shrimp that have a word with the **-nk** digraph in it. Find the shrimp with the **-nk** words and color them **pink**. Then, color the flamingo to match the color of the food it has eaten.

Answers: skunk, drink, tank, bank, honk, think
