The titles in the MaryRuth Books guided reading collections have been evaluated by Fountas and Pinnell. In placing a text along a gradient of difficulty, many factors are considered and reading professionals do not always agree on the level for a book. In order to be as accurate as possible and encompass evaluations from different recognized experts, we have included multiple levels for some titles. Levels are approximate indicators of text difficulty and are intended to serve as a guide. Teachers should use their own experience and observations to provide a successful reading experience for each individual student. Visit our website to read a sample book.

Accelerated Reader® (AR) is a computer program that helps teachers and librarians monitor a student's independent reading practice. The young reader picks a book that is at his/her level and reads it at his/her pace. When finished, the student takes a short quiz on the computer that evaluates reading comprehension. Accelerated Reader® (AR) gives children, teachers, parents, and librarians feedback based on quiz results. Educators use the information to help students set personal goals and continue to direct ongoing reading practice. MaryRuth Books offers 3 sets of titles compiled according to Accelerated Reader® levels: Emergent Accelerated Reader® (ATOS 0.1-1.1), Early Accelerated Reader® (ATOS 1.2-1.7), and Transitional Accelerated Reader® (ATOS 1.8-3.9). The MRB Nonfiction/Informational Collection includes titles appropriate for Early Emergent (Levels A-C), Emergent (Levels D-E), Upper Emergent (Levels F-H), and Early Fluent (Levels I-M) readers... to engage, support, and encourage readers to progress. All titles feature original photography. Some titles include informational features like simple diagrams of science themes, labeled illustrations, and/or glossaries of newly introduced subject-specific words. Buying as the collection is an MRB Best Value price.

Single book, NR44-12-8-7: \$7.95
6-pk (6 of same title), PKNR44-12-8-7: \$36.00

The earliest literacy skills are about listening and speaking, rather than reading and writing. Rhythm, rhyme, and repetition play an important role in the development and acquisition of these skills. Nursery rhymes provide opportunities for children to hear, identify, and manipulate letter sounds. They also give children practice in pitch, volume, intonation, and rhythm. Children of all ages will enjoy pictures of Danny and Bee dressed up to reenact scenes from eight well-loved nursery rhymes. For a list of included rhymes, sample pages, and more information, see the website.

Each card has large pictures and is double laminated for durability and easy clean up. The set is bound together by a removable book ring that is inserted into a drilled hole in the corner of each card. Individual cards are able to be removed for use and then reassembled back into the set. **Danny's Reading Recipes** are designed to be read and followed, either by individual students, or by small groups of students in the classroom. Each simple recipe is presented with minimal steps and uses inexpensive, easy-to-find ingredients. None of the recipes requires the use of a kitchen or a special appliance.

Reading & Eating in the Classroom

Recipes are useful tools for analyzing functional text in the reading classroom. They require careful and repeated reading. Students use reading skills to decipher the recipe in a sequence of step-by-step directions, while learning new vocabulary in a hands-on activity. The real photographs help connect each step in the recipe to the written directions. Students use mathematics when following the steps and in the careful measurement of each of the ingredients.
