The titles in the MaryRuth Books guided reading collections have been evaluated by Fountas and Pinnell. In placing a text along a gradient of difficulty, many factors are considered and reading professionals do not always agree on the level for a book. In order to be as accurate as possible and encompass evaluations from different recognized experts, we have included multiple levels for some titles. Levels are approximate indicators of text difficulty and are intended to serve as a guide. Teachers should use their own experience and observations to provide a successful reading experience for each individual student.
